

SNORKELLING ADVENTURES

DIVE INTO THE WONDERS AT NATURE'S PLAYGROUND !

THE CORAL NUSERY (Beginner)

Play Island near Villa 134

At the nursery we are collecting coral fragments that have naturally broken off of their main colony and attaching them to homemade iron frames in order to assist in their survival. Once attaching these fragments onto a frame, we can observe the growth rates of different coral species. Within a few weeks our fragments will have encrusted themselves onto the frame. Within a month they will have grown over the cable tie that is securing them in place. After about six months, they will have started to grow branches. In total corals grow up to 10cm – 15cm a year. Our nursery has turned into its own thriving reef that has transformed our lagoon and increased the areas biodiversity, with visitors being sharks, turtles, sting rays and much more.

THE BLUE HOLE

Chill Island near The Deli Beach

The Blue Hole is a submarine hole of the beach of our Deli Beach. The hole is circular in shape, 6 m (19.7 ft) deep and is full of beautiful Staghorn corals. This sight is suitable for beginner snorkelers due to the shallow water and calm lagoon. The visibility can vary depending on the current but you are for sure to have a fantastic time.

ADVANCED SNORKELLING SITE

Chill Island near Pavilion 24

Exploring the Advanced Snorkelling Site near Villa 24 The snorkelling site located off the shore from villa 24 offers a more diverse range of coral and fish species compared to other sites. With varying depths and older coral structures such as big boulder corals, the habitat is rich and diverse. Advanced snorkelers can appreciate the currents in the area and proximity to the boat lane where the corals drop off into deeper waters with more coral coverage.

THE CRESCENT REEF LAGOON

Chill Island near Villa 49

Start your snorkelling adventure right off the shore and glide into the Crescent Reef Lagoon—a vibrant marine haven. Encounter blacktip reef sharks, sea turtles, stingrays, butterflyfish, nudibranchs, and more as you explore the shallow reef zone. A colourful reef escape for confident snorkellers, just steps from the beach. Best to be enjoyed during high tide. Mild to strong currents may be present.
